

产品描述 Product description

- | | |
|--------------------------------------|---|
| ① PTFE 套管通过挤出烧结而成套管 | ① When PTFE casing by extrusion sintering and complete tube |
| ② 工作温度: -60℃~260℃ | ② Low working temperature: -60℃~260℃ |
| ③ 额定电压: 150V 300V 600V | ③ Low rated voltage: 150v, 300v, 600v |
| ④ 产品具有耐高温、抗低温、抗强酸碱、耐高压、性能稳定且管壁超薄等优点。 | ④ Products with high temperature resistance, low temperature resistance, strong acid and alkali resistance, Resistance to high pressure, stable performance and wall thin, etc. |
